Meal Time Tileset - Fantasy Edition

■ Introduction

"Meal Time Tileset - Fantasy Edition" (hereinafter referred to as "this software") is a product created by Plummy Inc. and is a collection of assets containing graphic data that can be used in the game production support software "Maker" series.

■ About this content

This software is a collection of graphic assets suitable for "RPG Maker Unite".
It contains "Meal" map assets that are easy to use in a fantasy world.

■ System Requirements

System supporting "RPG Maker Unite".

■ How to use this software

This section explains how to use the assets in the collection.

< For the Unity Asset Store version >

1. Start the "RPG Maker Unite" editor and open the project to which you want to add assets.
2. Open the asset page in the Unity Asset Store and click the Open in Unity button.
3. The Package Manager window will open, displaying information about the asset. Download and click the Import button.
4. The Import window will appear. Click "Import" in the lower right corner of the screen to import this collection of assets in a batch.
5. The Import window will appear, which allows you to reference the assets as Unite assets. Follow the instructions to import.

< For the Steam version >

1. Start the "RPG Maker Unite" editor and open the project to which you want to add assets.
2. Select "Window" > "RPG Maker" > "Mode" > "RPG Maker Unite + Unity Editor" from the main menu.
3. In the Unity Editor, select Assets > Import Package > Custom Package.
4. Select "Meal Time Tileset - FE.unitypackage" in the folder of this asset collection and click [Open].

The "Import" window will appear. Click "Import" in the lower right corner of the screen to import this collection of assets in a batch.
